

SwatchM8: Installation Guide

1

Copy the provided “swatchM8” folder to your Maya script folder.

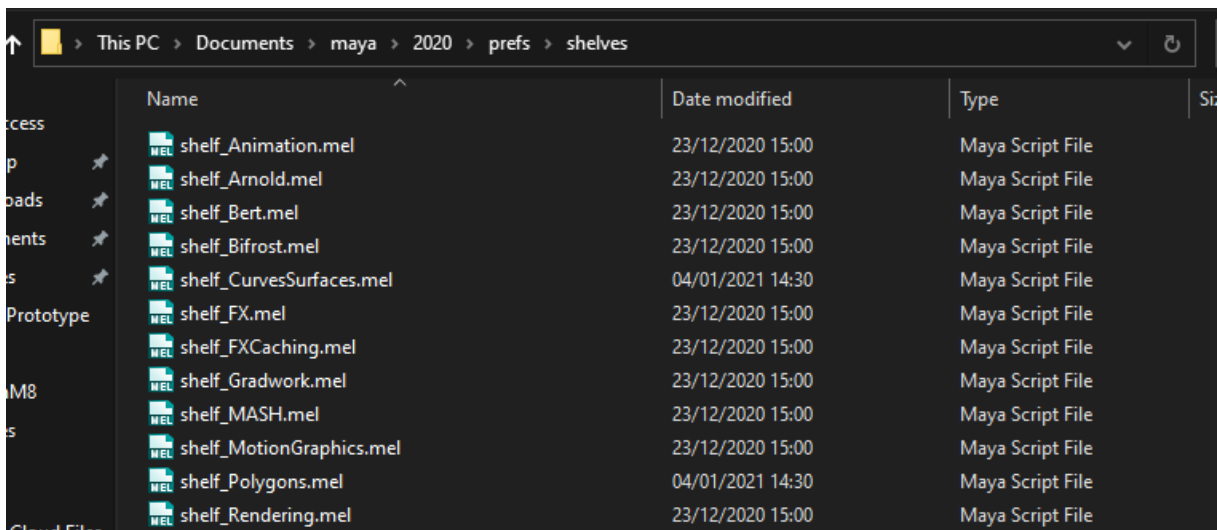

This can be found under Documents: “C:\Users\Bert\Documents\maya\scripts”

2

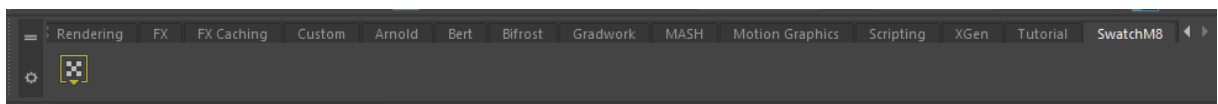

Browse to the Shelf folder of your specific Maya version.

This can be found again under Documents: “C:\Users\Bert\Documents\maya\2020\prefs\shelves”
paste the provided “shelf_SwatchM8.mel” file into that folder.

3

Launch Maya and a new Shelf tab called SwatchM8 should be present.

If this is not the case, please repeat step 2 or open the script editor and run this command to activate the script.

```
import swatchM8  
swatchM8.core.Main.Main(GUI=True)
```

4

Click the button in the “SwatchM8” to open the script.
